

MOULD BOARD PLOUGH

AGRIPAK Mould Board Plough is the most important Plough for Primary Tillage in Canal, Irrigated or Heavy Rain Areas, where too much weeds grow. The objecting for Ploughing with a Mould Board is to completely invert the soil, up-root all weeds, trash and crop residues and bury them under the soil.

The shape of Mould Board is such that these cut downs the soil and invert to right side completely burrying the undesired growth which is subsequently turned in to manure after decomposition.

SPECIFICATIONS:	Models: AG 07S	Models: AG 07M	Models: AG 07L
Number of Furrow:	1	2	3
Maximum Depth (cm):	20	2	25
Working Width (cm):	50	70	90
Weight (Kg):	110	160	210
Tractor Compatibility (Hp):	30 - 50	45-65	60 and more
Linkage Catagory:	I	I	II

** Also availabe in Special Heavy Duty Models with Heavy Iron Frames.*

SPECIFICATIONS:	Models: AG 07RV/3
Number of Furrow:	3
Maximum Depth (cm):	25
Working Width (cm):	105
Weight (Kg):	700
Tractor Compatibility (Hp):	80 and more
Linkage Catagory:	II
Construction:	Hydraulically Reversible. Made of Flat High Carbon Steel Frame and Cutting Edges.
