

SEED DRILL

AGRIPAK SEED DRILLS are used to sow cereal crops like Wheat, Barley, Rice, etc. in rows and at uniform depth. Tractor mounted for easy transport. Available in 4, 11, 13 and 15 rows versions with varieties of Wheat, Multi-purpose and Fertilizer Drills.

Kits for sowing acid-delineated cottonseed, corn, sunflower, grams, rapeseeds are also available for use with the drills.

Seed / fertilizer maturing systems are driven by factory fitted ground wheels out side the machine or as an option inside / rear side.
