

BACK HOE

The **AGRIPAK** BACK HOE attachment is mounted on the MF385/NH640s tractors chassis, a reliable and popular machine with sound hydraulic controls, side shift, comfortable operations and contemporary design.

A Power full tool for to use in Construction, Water Courses, and Drainage usages.

Well suitable for Pakistan and International Markets.

SPECIFICATIONS:

1) Overall Length Transport	:	6200mm (244.0")
- Side Shift	:	7735mm (304.5")
- Centre mount	:	
2) Axle Center to sew center	:	1320mm (52.0")
- Side Shift	:	1161mm (45.7")
- Centre mount	:	
3) Surface Reach	:	5582mm (219.8")
4) Bucket Rotation	:	
- Std. Link	:	194 Degree
- Power Pin	:	164 Degree
5) Overall Operating Height	:	5350mm (210.6")
6) Load over not SAE	:	3624mm (142.7")
7) Loading Reach	:	1845mm (72.6")
8) Digging Depth 2ft Flat Bottom SAE	:	4250mm (167.3")
9) Height Over Dipper Transport	:	3550mm (139.8")
10) Departure Angle	:	22"
11) Leveling Angle	:	
- Side Shift	:	8"
- Centre mount	:	15"
12) Transport Spread	:	
- Side Shift	:	1990mm (78.4")
- Centre mount	:	2134mm (84.0")
13) Operating Spread	:	
- Centre mount	:	3429mm (135.0")
14) Total Side Shift	:	1410mm (55.5")
15) Side wall clearance	:	110mm (4.3")
16) Side reach from out side edge of stabilizers side	:	
- Shift centrally mounted	:	4817mm (189.7")
- Side Shift fully offset	:	5522mm (217.4")
- Centre mount	:	4221mm (166.2")
