FRONT DOZER BLADE

AGRIPAK FRONT DOZER BLADE is used for Digging, Leveling, Angle dozing, Clearing, Backfilling and other Multiple Functions. The power dozers are designed and built to match the performance of the 45 - 90 HP tractors. They are operated hydraulically by single or twin double acting rams. The points of attachment of the dozer to the tractor are reduced to an absolute minimum and the mounting brackets, once fitted, can be left in position enabling the sub frame and the blades to be quickly removed and attached. The blade is fitted with a reversible and replaceable cutting edge of high carbon steel.

SPECIFICATION:	AG 13M	AG 13L
Blade Size (Width x Height):	6' x 22"	6.5' x 30"
Cutting Edge:	152mm (6") x 12.7mm (1/2") Section High Carbon Alloy Steel Reversible & Replaceable	152mm (6") x 12.7mm (1/2")
Blade Movement:	Max Lift 533mm (21"), Max Depth below ground 102mm (4")	Max Lift 533mm (21"), Max Depth below ground 102mm (4")
Hydraulic Rams:	Heavy Duty, Double Acting	Heavy Duty, Double Acting
Number of Rams:	Single or Double	Double
Tractor Compatibility:	45 - 65 Hp	65 - 90 Hp
Control Valves:	Open Center Double Acting Spool Valve.	

** Other Sizes can also be available for different Tractors.*
