

PNEUMATIC PLANTER (Multi Crop)

SPECIFICATIONS:

Use of sophisticated machinery is helpful to ease timely and proper Plantation thus achieve 15-20% more output. Pneumatic Planter along with maintenance of Inter row distance also capable of keeping Inter seed distance in row, Depth of sowing, Quantity of Fertilizer and proper moisturizer which plays a vital role in sowing of Maize and Sun Flower seeds. Thus it saves the wastage of seeds.

This Multicrop Planter is useful for sowing of Maize, Sun Flower, Cotton, Soya bean, Chick Pea, Sorghum, Tomato, Water Mellon and other vegetables etc.

Salient Features:

- 1- Inter seed distance in each row can be adjusted from 10-25cm.
- 2- Inter row distance can be adjusted from 45-75 cm easily.
- 3- Depth of sowing can be adjusted to provide proper moisturizer to seed.
- 4- Seeds after sowing are covered with proper soil.
- 5- Place and Depth of Fertilizer dropping can be adjusted
- 6- Markers on both sides of Planter are helpful for straight line sowing and prevent multiple dropping of seeds.
- 7- Pneumatic seeding mechanism is operated by PTO of the Tractor and the Plate, which drops the seeds in soil in equal quantity and regular spacing.
- 8- Pneumatic system prevents the seeds from any breakage thus ensuring 100% Utilization.
- 9- Seed Plate can be changed easily and Seed and Fertilizer Hoppers are easily serviced.
- 10- This Planter is easily transported by tractor Links

AGRIPAK 4 Row Planter

DESCRIPTION:	MODEL AG- 46S	MODEL AG-46M
Tractor HP Required	45-85HP	85-120HP
Length	2000mm	2000mm
Width	2570mm	3210mm
Height	1200mm	1200mm
Weight	580 Kg	700 Kg
Seed Capacity	48 Lit	72 Lit
Fertilizer	152 Lit	228 Lit
No. Of Rows	4	6
Inter Row Distance	450-880 mm	450-880 mm
Sowing Capacity	2 Acres/Hr. @ 5km/Hr Tractor Speed	

An ISO 9001:2008 Certified Company
