

# REAR BLADE

Land Leveling, Yard Cleaning, Farm Road Grading, Snow Clearing, Sitting Potato Clamps, Ditching and Terracing, Back Fillings, Earth Moving; these are some of many jobs that you can do with this versatile tool, AGRIPAK's MULTI PURPOSE REAR BLADE as well as AGRIPAK's REAR MOUNTED BLADE.

In AGRIPAK's MULTI PURPOSE REAR BLADE, with the grader wheel, hydraulic position control holds the blade at the chosen depth for the fine leveling. Angle and Pitch of blade adjustable from tractor seat. Blade pitch is adjustable from 0 - 40 degree by the screw lever in reach of the tractor seat. The blades can be completely reversed for back filling. For access to awkward place it can be offset to either side.

An alternative hitch pin for the right hand lower link allows the blade to be tilted for digging ditches or irrigation channels.

Rear Mounted Blade

Multi Purpose Rear Blade

## Model: AG 14

## SPECIFICATION:

## Model: AG 15

Double, Category I, Three-point Linkage
